INTRODUCTION

This document has been developed by the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce (USDC) to be used as a reference for determining which fishery products have been: (1) produced in processing establishments which have been sanitarily inspected, approved, and certified by the U.S. Department of Commerce as being capable of producing safe, wholesome products, and (2) produced in accordance with specific quality regulations promulgated by the U.S. Department of Commerce.

To provide the user with a ready reference, the establishments are divided into four categories:

1. Approved for sanitation only.

2. Approved for sanitation and also produce fishery products which have been inspected and bear the official USDC Inspection and/or Grade Marks.

3. Approved for providing inspected fishery products from sanitarily approved sources for procurement by the DPSC.

4. Approved for sanitation and produce animal feed products.

The firms and vessels listed in this document have, at their own expense, voluntarily subscribed to USDC Federal Inspection Services and have demonstrated their ability to meet rigid standards of sanitation and the capability to produce safe, wholesome fishery products. The National Marine Fisheries Service does not infer that plants not appearing on this list fail to meet rigid hygienic standards; rather, the list is merely a compilation of those firms participating in the National USDC Seafood Quality and Inspection Program.

The document is published semi-annually and can be obtained by submitting your request to the address below stating your desire to be placed on the mailing list for the Approved List, Sanitarily Inspected Fish Establishments:

National Seafood Quality & Inspection Laboratory
National Marine Fisheries Service
National Oceanic and Atmospheric Administration

Precooked Breaded Fish Sticks	60%	50%
Precooked Battered Fish Sticks	---	40%
Scallops		
Raw Breaded Scallops	50%	50%
Precooked Breaded Scallops	50%	50%
Precooked Crispy/Crunchy Scallops	---	50%
Precooked Battered Scallops	---	40%
Shrimp		
Lightly Breaded Shrimp**	65%	65%
Raw Breaded Shrimp**	50%	50%
Precooked Crispy/Crunch Shrimp	---	50%
Precooked Battered Shrimp	---	40%
Imitation Breaded Shrimp***	---	No. Min. Encouraged to put % on label
Oysters		
Raw Breaded Oysters****	---	50%
Precooked Breaded Oysters****	---	50%
Precooked Crispy/Crunchy Oysters****	---	50%
Precooked Battered Oysters****	---	40%
Miscellaneous		
Fish & Seafood Cakes	---	35%
Extruded and Breaded Products	---	35%

* Means no USDC grading standard currently exists.

** FDA standards of identity require that any products, USDC minimum of 50% shrimp flesh by weight and if labeled "lightly breaded" must contain not less than 65% shrimp flesh.

*** Any product with a standard of identity which contains less flesh than the standard calls for must be labeled imitation.

**** Flesh content on oyster products can only be determined on an input weight basis during production.
